

## COMMUNITY MEETING: SLSD PRIDE WALLS

### All Schools

September 17, 2019

#### SCHEDULE:

- October 2019 –
  - School teams to continue image search
  - Images to be provided to Daisy and scanned
- November 2019 –
  - Focus groups will be scheduled to review images
  - Final “to do list” to be generated
  - Discuss wall theme / layout (decades / subject / buildings)
- First Quarter 2020 –
  - Wall content to be finalized
  - Text / narratives to be written
- Second Quarter 2020 –
  - Walls to be designed

**LOCATIONS:** *These are the views I wanted to show the group in the movies.*

- At the Elementary Schools we have space for up to (6) 4'-0" wide x 8'-0" tall panels. The panel size and orientation can vary as the designs progress – but this is a starting point for everyone to understand the space available.

- At the Junior School we have space for up to (6) 4'-0" wide x 8'-0" tall panels. The panel size and orientation can vary as the designs progress – but this is a starting point for everyone to understand the space available.

## IDEAS:

- Harrison Elementary:
  - May have a panel or two dedicated to building history (may apply to Harrison High School as well) and then a series of boards dedicated to just the time the building was an Elementary school
- Central Elementary:
  - May have a board dedicated if Hooven, E-Town, Miamitown, and Whitewater
  - Additional digital content may be available for Miamitown and Whitewater
- Crosby:
  - Not at meeting
- Junior School:
  - If additional sports memorabilia and/or student artwork is available gallery space could be created in the hallway leading to the gymnasium
- High School:
  - If newspapers do not scan well the news articles could be recreated digitally
  - Discussed having 4 panels – 1 for each of the High School buildings
- All:
  - Desire to capture the existing buildings in some way
    - Video and/or using SHP's matterport camera was discussed
  - Discussed including QR codes on the boards for additional content
    - QR code could be an "add on" item so that it could be removed or updated as technology changes

## END OF MEETING MINUTES
