Handbook for Gifted and Talented Education

August 2018
Southwest Local School District believes in the appropriate education of all its students. Several policies for the advancement of students exist and are followed by the staff at Southwest. These policies include gifted identification, acceleration, early entrance to school, as well as early graduation.

While gifted services are not mandated in Ohio, the Southwest Local School District believes in providing quality education for all students. Through a menu of opportunities, advanced students may qualify and participate in services designed to meet their unique learning needs. This handbook provides an overview of Southwest’s menu of services and criteria for acceptance.

Talented and Gifted services are available for students in grades 1-8.

Middle School services in mathematics include a compacted 6th grade Advanced Math curriculum, 7th grade Algebra 1 for high school credit, and 8th grade Geometry for high school credit. Additional secondary opportunities at the High School include AP courses, dual credit and Post Secondary Educational Options through the College Credit Plus program.

Corinne Hayes
Assistant Superintendent
Gifted students are those who perform or show potential for performing at remarkably high levels of accomplishment when compared to others of their age, experience, or environment. These students possess superior intellectual abilities, superior academic abilities, superior creative thinking, and/or superior ability in the visual and performing arts.

As required by law, the gifted staff will hold a gifted education endorsement or license that is granted by the Ohio Department of Education to educators who have completed the appropriate training and coursework to qualify for this license. This training includes coursework in the identification of gifted children, appropriate curriculum and instruction, and meeting their social and emotional needs. Ohio requires general education teachers serving gifted students in the regular classroom to receive highly qualified professional development in gifted instruction or in working with gifted students.
On June 30, 1999, the Ohio Legislature approved House Bill 282 which required all school districts to develop a plan for identifying students who meet the state requirement for identification of gifted students in grades K through 12. The plan, entitled “Model Policies and Plan for the Identification of Gifted Students” specifies the procedures that must be applied. On March 6, 2017, the Joint Committee for Agency Rule Review approved revisions to Ohio's gifted operating standards (Ohio Administrative Code 3301-51-15).

Using a list of tests and other instruments that have been approved by the Ohio Department of Education (ODE), Ohio districts are required to make identification in the following areas and in these specific ways.

- **Superior Cognitive Ability:** The student must score two standard deviations (SD) above the mean, minus the standard error of measurement (SEM) on an approved standardized group intelligence test or performance at or above the 95th percentile on an approved standardized achievement test. The student can score two standard deviations above the mean, minus the standard error of measure on an approved individual standardized intelligence test administered by a licensed psychologist.
- **Specific Academic Ability:** The student must score at or above the 95th percentile in math, reading, science or social studies on an approved standardized achievement test. A child may be identified in more than one specific academic area.
- **Creative Thinking:** The student must score one standard deviation above the mean, minus the standard error of measure, on an approved standardized intelligence test and attain a sufficient score on an approved test of creative ability or on an approved checklist completed by a person who is trained in the recognition of creative behaviors.
- **Visual or Performing Arts:** The student must attain a sufficient score on an approved checklist of specific arts areas and must demonstrate superior ability through a display of work, audition, or performance.

*The Rule for Gifted, Identification and Services for Children Who are Gifted,* outlines specific requirements that school districts must meet in identification and services for gifted students. State and regional consultants, as well as county and local coordinators, provide assistance to districts in the implementation of these requirements.
The Southwest Local School District ensures that all students are provided equal opportunity to be screened for potential giftedness. The District employs the following procedures:

- The District casts a wide net when looking for potential academic giftedness. Students are whole-grade assessed in grades 2 and 5 using ability and achievement measures. Primary screening occurs prior to the first opportunity for gifted services and thus provides the district with a comprehensive look at all children.
- The District provides small group screening opportunities in the fall and spring annually, when grade-level assessments are not given. Students referred for assessment by teachers, parents, self or other students will be offered opportunities to be assessed for giftedness. Gifted referral forms are available on the District website as well as in school offices.
- Upon request, the District reviews the cumulative records of all students transferring into the District. Those students meeting the criteria for gifted identification and/or service are notified. Additionally, parents of transfer students may request screening and the student will be assessed within 90 days of that referral.
- Upon submission, the District accepts scores on approved instruments provided by other school districts or trained personnel outside the school district; this includes, but is not limited to, private schools, talent search organizations and testing facilities.
- In each area of gifted identification, the District uses qualified employees when screening students. Personnel may include gifted intervention specialists, counselors, psychologists, and/or educators with licenses in the visual/performing arts. These employees are trained in the use of the assessment(s) and have access to personnel licensed in gifted education. Furthermore, the District utilizes individually administered assessments when student need is established and is deemed in the best educational interest of the student.
- The District is aware of the unique assessment needs of diverse students. Every effort is made to administer the most appropriate assessment to every student; this includes individual tests, tests with non-verbal components, tests in the student’s native language, as well as tests valid for special populations. District personnel select from a wide range of available assessments and consult the instrument’s technical manual for assurance of use with diverse populations.
- The District provides parents with written notification of any assessment results within 30 days of receiving those results. Additionally, District personnel providing regular classroom instruction and/or services to identified students are notified of the students’ areas of giftedness. When service criteria is met, students are placed as soon as possible with regard to natural educational breaks (grading periods, end of instructional units, etc.).
- Parents may appeal in writing any of the following: the results of the assessments, the scheduling of their student for assessment, or the placement of their student in any service. Those appeals must be received within 30 days of the District’s notification of results. Appeals are sent to the Director of Curriculum at the District Office. The District will work with the parents to resolve those appeals; however, District timelines for screening as well as criteria for service will be followed.
The following objective information is used for gifted identification and criteria for gifted services. No subjective data (grades, teacher recommendations, or checklists) is used in the decision-making process.

Assessment Instruments Used for Gifted Identification

A comprehensive list of the assessments used within the District is found below. The complete list of approved instruments can be found on the Ohio Department of Education website.

### Superior Cognitive Ability

- **InView Measure of Cognitive Abilities**  
  Screening Criteria 126 and Identification Criteria 128
- **Otis Lennon School Ability Test**  
  Screening Criteria 124 and Identification Criteria 126
- **Stanford-Binet Intelligence Scales—5th Edition**  
  Screening Criteria 125 and Identification Criteria 127
- **Stanford Achievement Test—10th Edition, Complete Battery**  
  Screening Criteria 93% and Identification Criteria 95%
- **Wechsler Individual Achievement Test**  
  Screening Criteria 125 and Identification Criteria 127
- **Wechsler Intelligence Scale for Children—5th Edition**  
  Screening Criteria 125 and Identification Criteria 127
- **Wechsler Preschool and Primary Scale of Intelligence – 4th Edition**  
  Screening Criteria 125 and Identification Criteria 127
- **Woodcock-Johnson IV Tests of Cognitive Ability**  
  Screening Criteria 125 and Identification Criteria 127

### Specific Academic Ability

- **ACT Assessment Program (AAP)**  
  Identification Criteria 95%
- **Measures of Academic Progress (MAP)**  
  Identification Criteria 95%
- **SAT Test**  
  Identification Criteria 95%
- **TerraNova Third Edition, Multiple Assessments**  
  Identification Criteria 95%
- **Wechsler Individual Achievement Test—Third Edition**  
  Identification Criteria 95%
- **Woodcock-Johnson IV Tests of Achievement**  
  Identification Criteria 95%
Assessment Instruments Used for Gifted Identification

Creative Thinking Ability

Gifted and Talented Evaluation Scales 2, Creative Thinking Section
Screening Criteria 90-110 and Identification Criteria 111

InView - Measure of Cognitive Abilities
Screening Criteria 110 and Identification Criteria 112

Otis Lennon School Ability Test—8th Edition
Screening Criteria 108 and Identification Criteria 110

Scales for Rating the Behavior Characteristic of Superior Students, Part II
Screening Criteria 48-50 and Identification Criteria 51

Wechsler Intelligence Scale for Children, 5th Edition
Screening Criteria 110 and Identification Criteria 112

Wechsler Preschool and Primary Scale of Intelligence – 4th Edition
Screening Criteria 110 and Identification Criteria 112

Visual and Performing Arts

Gifted and Talented Evaluation Scale (GATES 2), Artistic Talent Section
Screening Criteria 90-110 and Identification Criteria 111

Scales for Rating the Behavior Characteristic of Superior Students,
Art: Part V Screening Criteria 59-60 and Identification Criteria 61
Music: Part VI Screening Criteria 37-38 and Identification Criteria 39
Drama: Part VII Screening Criteria 54-56 and Identification Criteria 57

Ohio Department of Education Rubric for Scoring Visual Art Grades K-12
Screening Criteria: 16-20 and Identification Criteria: 21-24

Ohio Department of Education Rubric for Scoring Music Grades K-12
Screening Criteria: 14-17 and Identification Criteria: 18-21

Ohio Department of Education Rubric for Scoring Drama Grades K-12
Screening Criteria: 16-19 and Identification Criteria: 20-24

Ohio Department of Education Rubric for Scoring Dance Grades K-12
Screening Criteria: 20-25 and Identification Criteria: 26-30
Continuum of Educational Opportunities

Grade Level Acceleration

Subject Acceleration

TAG – Grades 6-8 Language Arts only

Individualized Advisory Enrichment, Curriculum Compacting, Clustering, Primary Enrichment activities, Honors, and AP Courses, Field Trips, Guest Speakers, Class Enrichment, Independent Study, Clubs and Competitions, PSEO
Ohio law requires all districts in the state to identify gifted students and to report that information on the Educational Information Management System; however, there is no law that requires that specialized services be provided to those students. Southwest Local School District has chosen to dedicate resources in several ways to provide services to this population.

**Regular Classrooms with differentiation:**
Teachers in the regular classrooms at Southwest have made a commitment to these students by working to design lessons that target each child’s need through a process called differentiation. This means that teachers analyze what level a student has reached relative to what is being taught and then modify activities to meet the student’s needs, whether it be intervention to develop new skills and knowledge or an extension or enrichment activity for those who are ready to move ahead. Students may be cluster grouped into one or two classrooms per grade level. Students would then receive advanced and/or differentiated experiences. Students with specific academic gifted identifications may be served in this cluster service model by highly qualified general education teachers.

**Program for Academically Talented Students (TAG):**
*TAG Reading/Language Arts service is offered at Southwest Middle School in grades 7 and 8. Seventh and eighth grade superior cognitive students are served in the class. Students study advanced vocabulary, participate in an in-depth genre study and work toward mastery in different styles of writing.

Overarching Middle School TAG Program Goals include:
- Providing a differentiated/accelerated core curriculum commensurate with abilities
- Integrating basic skills and higher-level thinking skills within the language arts curriculum
- Developing and using higher-level thinking and process skills

**Honors and AP Courses:**
At the secondary level both honors and Advanced Placement courses are available for students who are ready for a higher level challenge. Identified students are encouraged to participate in these courses as they make course selections.

**Dual Credit and Post-Secondary Educational Options:**
These educational options afford qualified students the opportunity to attain college credit while in high school. The process entails working with a local college or university to design a plan whereby a student may be dually enrolled in high school and college or whereby the student may be earning strictly university credit.
As the service model for grades 1-8 is the General Education Classroom setting, any waiver of assignments or tests is not applicable.
Students participating in the grades 6-8 Language Arts TAG service and those being served in the general education classroom by highly qualified teachers will have a Written Education Plan (WEP) that includes learning goals. Those goals are based on the District curriculum, reading units and projects, as well as student needs and interests. Parents will receive a copy of the WEP in the fall. At the end of each semester, progress reports will be sent home highlighting student growth goals thus far.

The middle school TAG class is a replacement of the regular language arts block in sixth, seventh, and eighth grades. Students are scheduled into these courses annually utilizing the middle school scheduling process. Students may elect to sign up for the class and/or if a student wishes to withdraw from the program, parents must request the withdrawal in writing to the central office administrator. All withdrawals are valid for one school year and students will become eligible for and invited the following year.
Students are expected to participate fully in service options if they and the parents/guardians make the decision to accept placement. This includes maintaining high standards for their regular class activities, as well as attending TAG or other options regularly. They are expected to bring any needed supplies and to cooperate fully with district personnel. The overarching goal of the provision of services is to support the student in reaching his or her full potential. This goal must be common between the student, the parents/guardians and the school.
