FOUR-YEAR COLLEGE ENROLLMENT PROBABILITIES, BY AVERAGE AP SCORE

AP students, including those with average scores of 1 or 2, are more likely to enroll in a four-year college compared to academically similar students who did not take AP in high school.

PERCENTAGE EARNING A HIGHER SCORE ON A SUBSEQUENT AP EXAM

Many students who first earn an AP Exam score of 1 or 2 will then earn a higher score on the subsequent AP Exams they take.

Credit and Placement Opportunities

- Each college and university has its own policies regarding AP credit and placement.
- Find colleges that grant credit, placement, or both for AP Exam scores at collegeboard.org/apcreditpolicy
 - Search by course or college
 - Data for each college includes a direct link to that college's website detailing AP credit and placement policies
 - See each college or university's statement about its AP policy

Credit vs. Placement

- Credit
 - Many colleges offer credit for AP scores.
 - Example—a student earns a 4 on their AP Biology Exam, and the college grants 8 credits for that score. That means the student has earned 8 credits before taking their first class there.
- Placement
 - Many colleges recognize that AP scores demonstrate knowledge of material in certain courses and let students skip those courses.
 - These could be introductory courses required in your major, or core courses the college requires all its students to take.
- In some cases, students can get both credit and placement for a qualifying AP score.
